

Daily Dream Home: Andaz Turks and Caicos

Hyatt's newest Caribbean development, Andaz Turks & Caicos at Grace Bay is opening 2020 and has officially kicked off sales. The stunning oceanfront property spans 5.5 acres along beautiful Grace Bay Beach.

The development recently unveiled the limited collection of Penthouse Lofts. There are currently only three available for purchase.

Francisco Jove of Modus Operandi has created an interior design that juxtaposes casual Caribbean-style luxury with chic, modern lines.

Interior highlights include custom millwork, Spanish porcelain tile floors and solid wood doors with brushed stainless-steel hardware. Inspired by a combination of urban luxury and the ethos of indoor/outdoor Caribbean living, the Penthouse features an additional 700-square-feet of outdoor space from its private rooftop complete with lounging area, plunge pool, wet bar, and entertainment center.

The one-bedroom unit is 1,281 square feet and the master bathroom has an enclosed wet room overlooking the Caribbean, a free-standing deep soaking bathtub, and spa-inspired porcelain mosaic tile floors and walls. It is listed for \$1,295,000.
